Years of experience in facilitation/training/outdoor adventure: 15 years

Brandon is the Director of Programme Facilitation & Development for GAC. He has designed and delivered experiential learning programmes to over 500 programmes in the last 7 years. He leads the training of some of GAC anchor programmes such as the Corporate Team Building, Indoor Facilitation, International Award (The Duke of Edinburgh), and Corporate Social Responsibility programme. Some of the clients under Brandon's portfolio include Exxon Mobil, Honda, Shell, Fusionex, Alstrom, Wall Street Journal, CIMB Bank, Petronas Carigali, Lee Kum Kee, Jotun Paints, Galaxy Group, ASTRO, Samsung Corning, Inti International University College, Alice Smith School, Raritan, Leighton Asia and many more.

Brandon, with his 15 years of experience in the field, has also garnered experience in conducting facilitation workshop. Beside that, he is still active in scouting activities and continues to contribute to his troops. His easy-going demeanour and ability to reach out to people allows Brandon to effectively bridge generation gaps found in teams, break barriers of communication, and bring out the best performance in people, inciting commitment and motivation. He also has a strong interest in wilderness medical, risk management, conservation activities (flora-fauna), history and culture, and is able to provide his clients with insights into the local's way of life. He currently continues his PhD Research in Build Environment and Certification in Certified Professional Facilitator (CPF) with International Association of Facilitators (IAF).
